RENOVATE SPACES: NEW LIFE FOR YOUR OLD HOME

Loft, 2010. Taschenbuch. Condition: Neu. Neu - The originality inherent in spaces that have been reformed and converted into dwellings has meant that renovations have become a popular architectural topic. Any space can be transformed into a dwelling: old water tanks, industrial spaces, old flats. Whether dealing with old homes that need upgrading for a new family, or spaces with a former non-residential use, the renovation plans always take into account the characteristics of the previous construction. Moreover, they emphasize elements of historical value, and are adjusted according to clients' needs and budgets. Renovated dwellings should be seen as positive for the cityscape and its evolution. They preserve architectural heritage and recover underutilized spaces, renewing the demographic fabric of populations. This book allows you to enjoy a series of residential spaces that stand out for their inventiveness and the first-rate architectural interventions of their creators. 420 pp. Englisch.
