AN ESSAY ON THE EDUCATION OF THE EYE WITH REFERENCE TO PAINTING: ILLUSTRATED BY COPPER PLATES AND WOOD CUTS (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from An Essay on the Education of the Eye With Reference to Painting: Illustrated by Copper Plates and Wood Cuts IN prefacing a work of this brief description, where so many branches of the Art of Painting are introduced with little more than an enumeration of their component parts, I ought to apologise, in the first instance, for thus attempting to convey any information which can be carried into practical usefulness in so small a compass: my motive for so doing was to give, if possible; an insight into the intricacies of the Art, without distracting the attention of the reader by a multitude of examples, whose union often destroys the strong impression of a single illustration. Though the varieties of painting are endless, yet the properties of which these varieties are composed are, as in music, few in number; I have endeavoured, therefore, to notice only the leading principles which must be known, and which by reflection and observation can be extended to an infinite series of ramifications. The same simple rules which should regulate the instruction of beginners, I have endeavoured to point out as existing in the highest departments of the Art, communicating by their presence that value which a vein of gold imparts to a mass of inferior matter. To some it may appear that the subject is too. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
