Aliens, Pirates and Beasts (Paperback)

By Wild-Freddy Morgan

Createspace Independent Publishing Platform, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Thousands of years have passed and races originating from five different planets dominate the universe. Earth is one of those five, although not the most influential one. People are used to very high-level technology, like being able to fly, and complain if their commute to another continent takes more than five minutes. This all changes to the Smith family when they shipwreck to a planet where none of the usual technology works. They start living in a city of people who have arrived the same way over a long time and after a while they get used to the life of hunting, fishing and barbecue. Soon the newly arrived people from different planets start looking more like funny flavor to the daily routine than what they used to consider normal. As soon as everything feels normal for the teenage kids, an incident with a dragon changes their life once again. They become superheroes, but start acting more like detectives or secret agents when they start investigating a local pirate gang.

Reviews

It is easy in study better to understand. Of course, it is actually play, nonetheless an amazing and interesting literature. I am quickly could possibly get a satisfaction of reading through a published ebook.
