Primary School Arithmetic: Designed for the Use of Pupils in Primary and Intermediate Schools

The object of the author, in preparing this little work, has been to furnish lessons in Arithmetic

for young children suited to their age and capacity. To accomplish this desirable object, care

has been taken that they should be strictly progressive. Commencing, therefore, with the

simplest elements and combinations of numbers, the lessons advance by easy and gradual

steps, in the form of tables, interspersed with practical examples and simple exercises to be

performed on the slate, until they conduct the pupil through the various operations, with

numbers as high as 12, of Addition, Subtraction, Multiplication, and Division. Having completed

the tables, Addition, Subtraction, Multiplication, and Division, and their appropriate arithmetical

terms and signs, are clearly defined, and the methods of operation explained, and illustrated

by appropriate examples. The Rules for their operation are also given, with exercises in larger

numbers to be performed on the slate, followed by a few practical questions. It is believed that

these slate...
