

## Evolution Is Not Science

Filesize: 5.77 MB

### **Reviews**

*This book might be worthy of a go through, and a lot better than other. it had been writtern really properly and helpful. You may like just how the author write this publication.*

**(Prof. Mattie Beatty)**

## EVOLUTION IS NOT SCIENCE

Advantage Press, United States, 2014. Paperback. Book Condition: New. 4th. 254 x 203 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Science proves that ancient Bible scriptures accurately described the creation sequence of the universe and major groups of living organisms. Today, humans can reproduce very crude examples of instant creation in the lab using 3D bioprinting that requires intentional engineered design. Animal life includes trillions of interacting cellular nanocomputers that use: computer programs, nanobatteries, alternators, two-cycle nanomotors, interacting nanoclocks, 3D nanoencryption, plus a computer network hub animal brain with 3D relative motion imaging cameras and built-in worldwide GPS navigation far more advanced, efficient, repairable and self-fabricating than any human designs. Dinosaur features and behaviors including some similarities to birds were accurately described first in the ancient Bible book of Job and confirmed by science today, but the Bible never stated that dinosaurs lived during the time of Job, Noah or Adam. Many instantly appearing fully formed organisms are still alive today with over 220 million years of nearly unchanged fossil stasis including Cyanobacteria, Coelacanth Fish, frogs, crocodiles, jellyfish, flowering trees, sharks scorpions and dragon flies (swamp flies). Rigorous science can prove that animals only experience small variation after their kind as the Bible described and Darwin copied. Godless macroevolution between different kinds is disproved today by more rigorous science using complete 3D fossils, frozen ancient real tissue samples, mtDNA, improved radio carbon dating, statistics, cancer research, AIDS research, decades of Mars rovers and exposed evolutionary blunders, corruption, threats and fraud. The last Neanderthals became extinct thousands of years before the first humans instantly appeared on a separate continent. The first complete family of 3D in situ homo erectus skulls proves they resembled occasionally upright Bonobo apes today. Iceman Otzi s 5,300 year old frozen brain, organs...
