Reviews

It is one of the most popular books. I am quite late in starting to read this one, but better than never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Springer. Hardcover. Book Condition: New. Hardcover. 390 pages. Dimensions: 9.6in. x 6.4in. x 1.1in. Updating the book since its last publication in 1985, this new edition of the landmark work on human resource accounting has been substantially revised to reflect the current state of the field through the late 1990s. The economies of many nations are increasingly dominated by knowledge- or information-based sectors driven by highly trained and specialized personnel. Whereas physical capital was of the utmost economic importance in the past, the distinctive feature of the emerging post-industrial economies is an increasing reliance on human and intellectual capital. The growing importance of human capital as a determinant of economic success at both the macroeconomic and microeconomic levels dictates that firms need to adjust to this new economic reality. Specifically, if human capital is a key determinant for organizational success, then investment in the training and development of employees to improve performance is a critical component of this success. This broad socioeconomic shift underscores a growing need for measuring and analyzing human capital when making managerial and financial decisions. Yet important human resource decisions involving hiring, training, compensation, productivity and other matters are often made in the absence of specific information about the different costs and benefits of these particular choices. Human resource accounting is a managerial tool that can be used to gain this valuable information by measuring the costs of recruiting, hiring, compensating and training employees. It can be used to evaluate employee training programs, increase productivity, and improve managerial decision-making regarding promotions, transfers, layoffs, replacement and turnover. Case studies illustrate, for example: How an insurance company evaluated a training program for claims adjusters and found that it would return two dollars for every one dollar spent. How a human resources accounting study revealed that an electronics firms losses...
