Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The North American Review, Vol. 30 It will be seen at once, therefore, that Mr Pitkin has undertaken a difficult task. It must not be understood, however, that he goes to the extreme, which some might infer from his title-page, of separating the political and civil from the other branches of history. He never loses sight of his chief purpose, yet he does not wholly discard narrative where it is essential to the development of political principles and acts. Philosophical history makes no part of his plan, nor does he often venture into the region of conjecture or speculation but his primary object is to embody, in as methodical a manner as the subject will admit, the political characteristics of the different forms of government and society, which have existed in this country, from the time of the first settlement of the colonies, till the retirement of Washington from the presidency. In prosecuting this design he brings under review the early charters, and traces their operation in the several colonies. The proprietary and royal governments are examined in the same manner. At length come the difficulties between the assemblies and governors, or rather between the people and the agents of royalty, which grew up into the causes of the revolution. These are pursued to their results. From that period to the end of his work he manages the abundance of his materials with good judgment, and with a strict adherence to his plan.
