

Global Economy in 2030: Trends and Strategies for Europe (Hardback)

By Daniel Gros, Cinzia Alcidi

Office for Official Publications of the European Communities, Luxembourg, 2014. Hardback. Condition: New. Language: English . Brand New Book. Long-standing economic trends that were disrupted by the global financial crisis can no longer be counted on as a reliable guide for understanding and charting the future. To provide a more accurate analysis of the likely course of worldwide financial developments, this volume concentrates on a set of critical economic factors and offers a description of the possible evolution of their reach and scope. The Global Economy in 2030 is the result of a collaborative effort of CEPS, the Centre International de Recherches et d Etudes Monétaires, the Institute of Studies for the Integration of Systems, and Société Européenne d Economie. Contents 1. Executive Summary Part I. Global Drivers of Growth 2. Population and Human Capital 3. Capital and Capital Markets 4. Globalization 5. Technology and Innovation 6. Natural Resources: Energy and Metals Part II. Economic Growth and Prosperity in 2030 7. The State of the Global Economy in 2030 8. The Impact of Growth on Affluence and Poverty 9. The Impact of Growth on Climate Change Part III. The EU's Transition Towards 2030 10. The Outcome of the Nemesis Model: Introduction 11. Europe as Whole 12. A More Detailed Approach 13. The Consequence of Higher Productivity...
