Bigfoot, also known as Sasquatch, is described as being an ape or hominid-like creature that lives in forested areas, particularly in the pacific northwest. Indeed, there are hundreds of new bigfoot sightings reported each and every year, and not just in the pacific northwest. This bizarre, often terrifying, creature has been spotted in all corners of the United States, from Washington to the very tips of Florida and Maine. There are many individuals throughout the years who have devised bigfoot hoaxes as a means of profiting off peoples desire to believe. But even while these popular cases are disproved, tales of encounters and photographs of footprints continue to come in. Some of these eyewitness accounts have been gathered to share with the world. These reports do not come from celebrities and scheming hoaxers, they come from ordinary men and women who have seen bigfoot in the flesh. Here Is A Preview Of What s Inside.
