Cultural Conservation. Paperback. Condition: New. 526 pages. Dimensions: 9.0in. x 6.0in. x 1.3in. Classical music, jazz, film scores, and the masterpieces of musical theater are in danger of fading into an undeserved oblivion. This crisis extends not only to music, but also to an ignorance of good books, art, theater, and films. This crisis is exacerbated by our vanishing history, a decline in language, and a pervasive celebrity culture. If this problem is not solved, our nations cultural and artistic heritage will be irretrievably lost. Mark! My Words by Mark Evans is the first book to address the challenge of this crisis. The author, a composer, writer, and broadcaster presents compelling evidence that change and progress are not synonymous and that new and improved often means a bigger box and fewer corn flakes . He explains why we have become a nation of hares instead of tortoises. In todays high tech world, students are emerging from school: Unfamiliar with any music other than what theyve heard on MTV. Unable to write, spell, or speak using the English language correctly. As experts on the lives of celebrities, but ignorant of the most basic facts of American history. Spending countless hours texting, tweeting, and downloading on the latest digital devices, but without reading any book that hasnt been assigned to them in years. With a healthy respect for the present, but a complete disdain for the past. InMark! My Words readers will encounter: True achievers in the arts who are ignored while we celebrate the accomplishments by geniuses of self-promotion. Teenagers who are mesmerized by pop culture and say they would rather be the assistant to a celebrity than president of a university or a successful business enterprise. Composers of classical music who have turned music into mathematics and have lost their audience...
