

Clock of the Long Now: Time and Responsibility: The Ideas Behind the Worlds Slowest Computer

By Stewart Brand

Basic Books (AZ). Paperback. Book Condition: New. Paperback. 208 pages. Dimensions: 7.8in. x 5.0in. x 0.7in. Using the designing and building of the Clock of the Long Now as a framework, this is a book about the practical use of long time perspective: how to get it, how to use it, how to keep it in and out of sight. Here are the central questions it inspires: How do we make long-term thinking automatic and common instead of difficult and rare? Discipline in thought allows freedom. One needs the space and reliability to predict continuity to have the confidence not to be afraid of revolutions. Taking the time to think of the future is more essential now than ever, as culture accelerates beyond its ability to be measured. Probable things are vastly outnumbered by countless near-impossible eventualities. Reality is statistically forced to be extraordinary; fiction is not allowed this freedom. This is a potent book that combines the chronicling of fantastic technology with equally visionary philosophical inquiry. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

Reviews

This is an awesome publication i have at any time read. Of course, it is play, still an interesting and amazing literature. You will like just how the author write this book.

-- Prof. Herta Mann

It is fantastic and great. It is written in easy words and phrases instead of confusing. I am just delighted to explain how this is actually the best book i have got read through during my individual life and might be the finest publication for ever.

-- Prof. Murl Shanahan DDS
