Createspace Independent Publishing Platform, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Mired in controversies, and never one to bite his tongue when speaking his mind, Trump s racist sentiments made headlines before becoming president. As a businessman, he abhorred the presence of black employees in his casinos and businesses. As president, he hates immigrants from Africa, and developing countries like Haiti, and El Salvador, among others. To Trump, countries in Africa, are shithole countries, whose citizens should be banned from the U.S.! He would rather prefer immigrants from Norway instead of Africa, Haiti and El Salvador! But there is more to Trump than racism! He counts on his untamed wits, and tweets to espouse his racist feelings and bigotry, and prefers personal squabbles to governance. Ensnared in sexual harassment, tax evasion, and controversies regarding Russian interference in the 2016 election, and scandals concerning corrupt cronies, he would find out that his chosen, self-styled archenemy, Hillary Clinton, is a child s play, and a tip of the iceberg, compared to his real problems, and what really plagues him. Unable to fit in, in political elitism, he would resort to dirty politics. And better still, unable to find his niche in the annals of presidential politics, he would resort to satisfying, and pandering to his political base, but his real enemy lurks in his own shadows, unbeknownst to him!.
