THE STORY OF MAPS

Dover Publications Inc., United States, 1980. Paperback. Book Condition: New. New edition. 231 x 163 mm. Language: English . Brand New Book. Early map making was characterized by secrecy. Maps were precious documents, drawn by astrologers and travelers, worn out through use or purposely destroyed. Just as men first mapped the earth indirectly, via the sun and stars, so must the history of maps be approached circuitously, through chronicles, astronomy, Strabo and Ptolemy, seamanship, commerce, politics. From the first determinations of latitude 2000 years ago through the dramatic unraveling of longitude 1700 years later, the story of maps plots the course of civilization. The Story of Maps, first published thirty years ago, charts that course with a breadth and depth still unsurpassed in a scholarly survey.
