GERONTOLOGICAL NURSING CASE STUDIES, SECOND EDITION NARRATIVES TO PROMOTE LEARNING

Springer Publishing Company. Paperback. Condition: New. 300 pages. Designated a Doodys Core Title! This is an excellent teaching guide and resource manual for instructors, gerontological nursing students, and practicing nurses and social workers who wish to learn more about geriatric concerns and care. It will be kept by nursing students long after they graduate as a guide to resources that will be valuable throughout their nursing careers. As a home care nurse working mainly with the geriatric community, I found the resources helpful in my practice. As an instructor, I found the book to be a very useful guide for teaching geriatrics. Score: 90, 4 Stars. --Doodys Medical Reviews This is a unique volume that effectively addresses the lack of gerontology case studies for use with undergraduate nursing students. Case studies are a pedagogically powerful approach to active learning that offer opportunities to apply content to clinical practice. --The Gerontologist The case narrative approach of this book promotes active learning that is more meaningful to students (and practicing nurses) and more likely to increase the transfer of evidence into practice. An excellent resource for faculty (staff educators) to facilitate critical learning skills. --Liz Capezuti, PhD, RN, FAAN Dr. John W. Rowe Professor in Successful Aging Co-Director, Hartford Institute for Geriatric Nursing, NYU College of Nursing This highly praised text for nursing students, now in its second edition, presents 110 unique, interactive geriatric health case studies depicting a vast range of realistic scenarios-physical, mental, and psychosocial--that may present to nurses who work with aging adults. With exercises that reinforce learning, each case study reflects a holistic approach, encompassing mind, body, and spirit, to the presented problem. The second edition features several new cases and thoroughly updated cases from the first edition that include new health guidelines, new health promotion criteria, web...
