

Hormones and Aggressive Behavior

By Bruce B Svare

Springer-Verlag New York Inc., United States, 2011. Paperback. Book Condition: New. 235 x 155 mm. Language: English . Brand New Book ***** Print on Demand *****.This volume is an overview of research examining the relationship between hormones and aggressive behavior. The last 15 years have witnessed a tremendous growth of knowledge in this area, yet reviews written by specialists are virtually nonexistent. This work is an attempt to provide a comprehensive and cohesive synthesis of this literature. Chapters 1-7 provide an analysis of hormonal influences on the major forms of aggressive behavior, including intermale, interfemale, shock-induced, maternal, territorial, and predatory aggression. The focus of Chapters 8-12 is an examination of the mechanisms through which hormones might act to produce changes in agonistic responding. Genetic, developmental, neural, and biochemical influences are considered. It is well known that environment, social context, and experience modulate the effects of hormones on behavior. Thus, Chapters 13-15 are designed to review the literature concerning hormone-pheromone interactions, hormonal responses to competition, and the influence of social context on the endocrine system and aggressive behavior. Frequently, the principles advanced by behavioral endocrinologists are based on research in one species, the rodent. To provide...
