

## The God Gene (Paperback)

By Dr John Evans

Outskirts Press, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.If there is a God Gene in humans, could it be responsible for the propensity toward religion, our fascination with the unknown, our appreciation of beauty, and our sense of justice, morality, and love? Like a telescope opens the heavens to scientists, the God Gene could be the unique tool that opens the human mind to things beyond oneself. If the God Gene were discovered and its chemistry were mastered, how would the world's great religions react? Could this knowledge be used as an approach to God, as a rude combination of the apple of Eden, the Arc of the Covenant, and the Holy Grail? Or would this discovery reduce God to nothing more than a genetic characteristic? What would religious zealots, terrorist nations, and greedy pharmaceutical companies do with this knowledge? Could the scientific field of Genetics be the most likely source of the next great change in human thinking? The adventure begins when three best friends, Spencer, Katherine, and Oz, share a near-death experience that inspires a fascination with the idea of destiny. Their lives are haunted with the...
