Reviews

It is just one of my personal favorite publications. It is among the most awesome publications I have read. It is extremely difficult to leave it before concluding, once you begin to read the book.

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from Karl Marx and Modern Socialism This book is not in any way an anti-collectivist pamphlet; nor does it claim to be either an original or a profound study of Marxism. But the life of Marx is so little known, either by friend or foe, and his teaching so often reduced to a few bald shibboleths, that there may perhaps be room for a sketch of him as he was in relation to the thought and the circumstances of his age, describing at the same time, in rough outline, the development of the labour movements of Europe to whose growth he contributed so much. The writer is one of those who are so genially described in certain quarters as class-biassed teachers in Universities, but he can plead practical knowledge of W.E.A. Tutorial Classes as, in some sense at least, a corrective to academic prejudice, and he is anyhow old-fashioned enough to doubt whether the writing of history must of necessity be only a class, or mass, interpretation of the past. Marx has certainly had less than justice done him hitherto because class interpretations have made him out as either an impeccable hero or a worthless ruffian: this deluge of praise and blame, in each case so often entirely indiscriminating, has had the effect of turning into an inhuman and almost legendary figure one who was in point of fact a very lovable, very exasperating but essentially real, though often wrong-headed, enthusiast. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
