It in a single of my personal favorite publication. It usually fails to charge an excessive amount of. Once you begin to read the book, it is extremely difficult to leave it before concluding.

A very short period Of time, however, will serve to convince him that the extra labour is not nearly so great as it appeared to be, the systematic methods adyo cated doing away, in most cases, with an incomplete and uneconomical condition of things; while the more definite knowledge assured will enable him to obtain the maximum reward Of his industry, and more than compensate him for any extra expenditure of time. The reader must also be reminded that the exact requirements of the baking trade differ in various parts of the country, and, whereas the principles explained will be found to be capable Of general application, in some instances a variation in detail may be necessary. Differences of this nature, however, are only minor considerations, and may be left with the reader to adjust.
