Reviews

Complete guideline for ebook enthusiasts. It really is loaded with knowledge and wisdom. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Delilah Hansen)

HUMAN AND MACHINE PERCEPTION 2

Book Condition: New. Publisher/Verlag: Springer, Berlin | Emergence, Attention, and Creativity | Proceedings of the Third International Workshop on Human and Machine Perception, held September 14-17, 1998, in Pavia, Italy. | The following are the proceedings of the Third International Workshop on Human and Machine Perception held in Pavia, Italy, on September 14 -17, 1998. This edition has been under the auspices of two Institutions: the Cybernetic and Biophysics Group (GNCB) of the Italian National Research Council (CNR), the Centro Interdipartimentale di Scienze Cognitive, of Pavia University and the Centro Interdipartimentale Tecnologie della Conoscenza, of Palermo University. A wide spectrum of topics is covered in this series, ranging from computer perception to psychology and physiology of perception, for analysing and comparing biological and artificial approaches. The theme of this workshop was focused on "Emergence, Attention and Creativity". The workshop structure consisted of five modules each one composed of two invited lectures (dealing with solutions in nature and machines respectively) and a panel discussion. The lectures focused on presenting the state-of-the-art and outlining open questions. In particular, they sought to stress links, suggesting possible synergies between different cultural areas. The panel discussion was conceived as a forum for an open debate, briefly introduced by each panellist, and mainly aimed at deeper investigation for the different approaches and strictly related topics. The panellists were asked to prepare a few statements on hot-points, which were delivered in advance to the participants as a guide for a qualified discussion. | Evolution: The Dynamics of Biological Evolution and the Importance of Spatial Relations and Shapes; L. da Fontoura Costa, L. Augusto Consularo. Emergent Evolution of Cooperative Structures; P. Mussio, P. Bottoni. Intervention in Evolution: (Un)Predictability versus Control; J.D. Becker. Panel Summary - Can Learning Guide Evolution? R. Bordogna, R. Walker. Emergence: The Emerging Properties of Neuronal...
