Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Report of the Superintendent of the Census Made to the Secretary of the Interior, 1878 The fullest examination which I have been able to give to the subject inclines me to the belief that our mining industries, in part, if not altogether, deserve a special treatment in the coming census. Coal mining and iron mining, indeed, dealing as they do with heavy products and being earned on almost exclusively within the limits of settlement and civilization, are susceptible of treatment like any other forms of industry. I do not, however, regard it as possible to make an enumeration of the gold and silver mining of the United States by the ordinary machinery of marshals and proposed blanks, which shall be in any way satisfactory. On the contrary, the probability is that the result under such a system would either be deceptive in the highest degree or else depart so manifestly from the real truth of the case as to become simply grotesque.
