Createspace Independent Publishing Platform, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Organic Gardening Basics: Grow A Garden! This introduction to organic gardening is to inspire, inform, and teach simple ways to design and grow your own garden! You will learn about soil preparation, what applications to employ in order to maintain natural standards, and what methods are best for starting plants from organic seeds and/or seedlings. For those who wonder why we should grow an Organic Garden is because we living beings are made up of the same ingredients as the foods we eat, the air we breathe, and the water we drink! This knowledge proves how important it is for us living beings to ingest foods that are as pure and natural as possible! Eating foods that are grown in accordance with nature s ability to feed us, clothe us, and shelter us is a human right that we were given at birth. Yet, in today s world it is a challenge and sometimes danergous to claim that right when one decides to not ingest, nor grow unnatural, fake foods, nor drink toxic waters, nor breathe life-threatening air pollutants. Thus, doing what we can to create a natural environment and choosing to grow an Organic Garden is more than just about eating. It is also the chance we give ourselves to thrive whilst living long and healthy lives! Plus, growing an Organic Garden creates a legacy of love for you and your loved ones who will eat and prosper from the foods you plant, tend, and harvest! Choosing to grow an Organic Garden is more than just about eating, it is also about thriving whilst living long and healthy lives! Plus, growing foods naturally creates a legacy of love! In this...
