Xlibris, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Creation is not a single event in time but a process continual into infinity. The Garden of Eden is part of this process. And as part of this process, it is dispersed and deviated into every region of man s world and does not exist any longer as a single entity. God s garden on earth is deviated into every region in the world. It is not in one location. Now each garden has, within its own power of creation, accordingly met mankind s needs of the region. In different regions are different plants, yet the same results affects on needs and cures. Hence the miracle of the Garden of Eden continues to exist wherever mankind chooses to live. Thus the garden will follow mankind wherever he chooses to live in the universe if it meets his perceived basic needs--air (oxygen), potable water, and food.
