Palgrave Macmillan, UK, 2004. Hardcover. Condition: New. First Edition. 456 pages. Available Now. Book Description: This volume brings together contributions on the major economic policy issues which have opened up as a result of the imminent process of European Union enlargement. The issues analyzed range from modelling and analyzing the costs and benefits of enlargement, to challenges for macroeconomic policy both at the EU level and in the new member countries, in particular for exchange rate policy, the timing of EMU entry and the design of appropriate fiscal policy frameworks. Further, the state of affairs in the new member countries is covered with respect to sectoral policy reforms such as those undertaken in the financial sector and in competition policy, while the impact of enlargement on Europe's trade policy agenda is discussed. The volume reviews lessons to be learnt from previous accession experiences and analyzes in detail the major issue of evolving disparities between the new member countries and those countries left out of the first round of the accession process (particularly in the Balkans and the CIS). The volume concludes with a panel discussion (with high-calibre academics and policy-makers) concerning political and economic policy challenges facing the New Europe. : About the Author: MICHAEL A. LANDESMANN is Scientific Director of the Vienna Institute for International Economics Studies (WIIW) and Professor of Economics at the Johannes Kepler University Linz. Previously, he has been a Fellow of Jesus College, Cambridge and a Senior Researcher at the Department of Applied Economics at the University of Cambridge.: DARIUSZ K. ROSATI is Professor of Economics at the Warsaw School of Economics and Member of the Monetary Policy Council of the National Bank of Poland. Previously he was a member of the Government Socio-Economic Strategy Council, and from 1995 to 1997 he was Minister of...
