

Vibrations of plates and shells with attached concentrated mass

By Safarov, Ismoil / Akhmedov, Maqsud

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | The work is dedicated to the development of mathematical modeling based on variational methods. How to solve dynamic problems of elastic and viscoelastic plates and shells systems with point links and concentrated masses. Available methods for the calculation of the dynamic behavior of elastic rectangular plates and shells of revolution with point contacts oriented, tend to the solution of specific problems. | Format: Paperback | Language/Sprache: english | 100 pp.

Reviews

Definitely one of the better book We have possibly read. We have read through and i also am certain that i am going to gonna study once again yet again in the foreseeable future. Once you begin to read the book, it is extremely difficult to leave it before concluding.
