Ane Books Pvt. Ltd., 2014. Softcover. Book Condition: New. First edition. Multiple choice questions have been used for the evaluation of student`s cognitive acumen in all the fields and disciplines of education. They also form the back-bone of the entrance tests all over the world. The book covers most of the basic biochemistry syllabus in sixteen chapters containing about fifty to hundred MCQs in each chapter. The text in each chapter flows from very basic to the very difficult. If you read a chapter from beginning, you find that the material grows with the topic in a way so as to simulate reading a textbook ? only in an interesting way. Each MCQ has been validated from a standard biochemistry book and the reference is written with each question for verification and further reading. Explanations in the book have been supported with very simple and vibrant figures that help the students in clarifying the concepts. The book is primarily designed for the undergraduate and post-graduate medical biochemistry students but will also be useful for basic biochemistry (B.Sc. & M.Sc.) students. Those preparing for various P.G. entrance tests, NET or for USMLE will find the book very useful since the book serves as a ready-made source of MCQs. The brief explanation attached with each question provides the students an alternative of a textbook since at this stage it is difficult for the students to go through each topic in detail. Contents 1. Chemistry of Carbohydrates 2. Lipids and Bio Membranes 3. Chemistry of Amino Acids and Proteins 4. Enzymes and Co-enzymes 5. Biological Oxidation and Bioenergetics 6.
