Outskirts Press, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. High School Sucks! Remember those days? Those times that parents and teachers call the awkward years that for some of us go on and on forever. Every day of those four years is a popularity contest that you can never win and many times can t even crack the top half Joe is that guy; his high school career will be defined by a Prom that he hasn t found a date to. No date, no money, crappy car, crappier loser friends, all the ingredients of a teenage angst recipe until one night changes Joe s life forever. A life that has been defined by horror movies, video games and teenage sex fantasies will turn upside down when Joe comes face to face with a .werewolf. What would any teenage suburban boy do when faced with the terrifying reality of a murderous lycanthrope loose in his town? Call the police? Tell his parents? Contact Discovery Network? No to all. Joe writes a blog following the trail of the beast and highlighting it s barbaric butchering of bad boys and bimbos in bloody gore-a-vision. Joe s life suddenly turns around. Popular blog, rich girlfriend, werewolf friend, date to the prom and a master plan to keep things going his way. This is not your little sister s romantic horror novel but a full throttled man-beast action thrill ride not for the squeamish. Read away, if you dare, but remember always chew your food and silicone implants can be choking hazards.
