This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. Beggar s ticks and marsh pink. Tearthumbs and chaimaker s rush. Live oak, pitch pine, wild black cherry, sassafras, and loblolly pine. From eelgrass rooted in wrack lines on windswept back shores to hardy maritime forests sculpted by strong winds and salt spray, the Mid-Atlantic coast is rich with a variety of habitats and an abundance of common, if not always familiar, plants. In Common Plants of the Mid-Atlantic Coast, Gene M. Silberhorn provides a field guide to the plants found along the coast from Long Island Sound to North Carolina s barrier islands. This introduction to the fragile ecology and remarkable beauty of the flora of the coastal region was highly praised by reviewers when it was first published in 1982. This revised edition retains the features that earned it acclaim and provides a wealth of new information. The three sections of the book correspond to the natural divisions of the landscape: Section One covers beaches,...
