SAGE Publications Ltd. Paperback. Book Condition: new. BRAND NEW, Academic Practice: Developing as a Professional in Higher Education, Saranne Weller, Taking a broad contemporary view of higher education, this book explore keys topics that all academics will need to engage with in order to survive and flourish in today's increasingly complex higher education environment. Key topics include: * teaching for employability and graduate attributes * responding to the internationalisation agenda * engaging with the dimensions of the digital university * enacting interdisciplinary approaches to teaching and scholarship * exploring teaching-research links in the curriculum * enabling inclusive approaches to student engagement and student voice. This book will introduce readers to the policy and practice debates informing these different areas while also providing practical guidance on how to implement and integrate the priorities arising from such debates into the different dimensions of their professional practice. It also uses the UKPSF five dimensions of teaching practice, planning for learning, teaching in practice, assessing learning, evaluating practice and engaging with discipline and pedagogic research, within chapters as cross-cutting themes. An essential course text for those studying for a Postgraduate Certificate in Academic Practice (PgCAP) or Postgraduate Certificate in Teaching and Learning in Higher Education (PgCTLHE) and Higher Education professionals looking to develop their professional practice.
