Excerpt from Description of Tax and Tariff Proposals for Domestic Oil Refining: Scheduled for a Hearing Before the Subcommittee on Energy and Agricultural Taxation of the Committee on Finance on March 27, 1981 The proposals described in this pamphlet have been scheduled for a public hearing on March 27, 1981, by the Subcommittee on Energy and Agricultural Taxation of the Committee on Finance. The hearing is on various proposals for tax incentives and tariffs to aid the domestic crude oil refining industry. Four specific proposals are among those to be addressed by the hearing. As announced in the Subcommittee s press release (81-113) March 11, 1981, these relate to (1) a modification of the foreign tax credit rules, (2) a tariff or fee on the importation of foreign refined petroleum products, (3) tax credits and accelerated depreciation for upgrading or retrofitting domestic refineries, and (4) the creation of tax-exempt crude oil purchasing cooperatives. The first part of this pamphlet is a summary of the specific proposals listed in the Subcommittee s press release. The second part is an overview of the oil refining industry, and the third part is a summary of the government regulations that have affected the oil refining industry. The fourth part of the pamphlet contains a detailed description of present law and an explanation of each proposal.
