Taylor Francis Ltd, United Kingdom, 2007. Hardback. Condition: New. Language: English . This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. This new text-atlas focuses on anatomy and procedural strategy for perfusion CT imaging in the diagnosis and management of cancer. It will use a combination of pictures and schematic diagrams that show how this new modality can be used to assess anatomy and guide therapeutic interventions. It begins with an introductory section discussing the state of the art and background support (including software) in the use of the technique; there then follows a sequence of chapters that review applications for each of the main body systems and anatomic regions. The book concludes with a section on the uses of perfusion CT in monitoring clinical trials, and also reviews new applications for combined modalities such as CT/PET. Short Contents.
