SEAWEEDS OF INDIA: THE DIVERSITY AND DISTRIBUTION OF SEAWEEDS OF GUJARAT COAST

Springer. Hardcover. Condition: New. 215 pages. Dimensions: 10.2in x 7.7in x 0.6in. India has 7,500 km of coastline with diverse habitats and rich biota. Coastal ecosystems, unfortunately, are experiencing a wide range of pressures due to siltation, eutrophication, coastal development, aquaculture, and climate change. Those species that adapt to these pressures will expand their living boundaries while others may fade away. Accordingly, the study of coastal biodiversity is of great concern globally and constitutes an important element of global change research...
