Createspace, United States, 2014. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Alexander was born in the year three thousand and eleven on a planet named after the Lord of our quadrant in this part of the milky way, called Mecka. It rests sixty light years from earth, in what the humans refer to as Orion s Belt, and has a celestial orbit with a star named Alnilam. My parents were killed by the blue and white army when I was thirteen, shortly after the international revolution started. I graduated college at the age of twenty one with honors from a high class university and took an internship at a private law firm in my home city of Nazarey, where I am studying for my masters in private law. My life was confronted by a robot who was to change my destiny and your own for eternity. The droid brought me to the capital of Mecka named Babylon where I was told by Lord Mecka s daughter Queen Rahdji, the ruler of my planet, that I must be sent back in time to retrieve blueprints from my former self for a device known only as the sphere of life, one of two time travel machines in this galaxy. I have been reincarnated three times since this life to be in the life I am now presently living on Mecka. These are my journals, whether it has actually occurred in real life or not is up to the reader to decide. 25 of my royalties will go towards my local high schools science department. As well as donating 25 of my royalties to the local historical society. Donate and entertain your mind, all at the same time.
