

## Labour Conditions for Construction: Decent Work, Building Cities and the Role of Local Authorities

By Roderick J. Lawrence, Edmundo Werna

John Wiley and Sons Ltd. Hardback. Book Condition: new. BRAND NEW, Labour Conditions for Construction: Decent Work, Building Cities and the Role of Local Authorities, Roderick J. Lawrence, Edmundo Werna, This authoritative guide promotes safe, healthy and non-exploitative working conditions for the construction industry. It combines theoretical analysis and case-studies from around the world, offering recommendations for best practice. The book results from a project funded by the Geneva International Academic Network, with staff from the International Labour Office and the University of Geneva. It presents and discusses the challenges and potential of local authorities to promote decent work in construction. Existing literature on decent work focuses mainly on the roles and responsibilities of actors in the private sector but the contribution of the public sector should not be ignored. Local authorities play a crucial role in economic development through a range of policies and programmes in the construction sector and related services. Labour Conditions for Construction: decent work, building cities & the role of local authorities includes a methodology that combines quantitative and qualitative information. It defines and validates a set of criteria to evaluate the capacity of local authorities, combining criteria about decent work, the construction sector and...
