

## Under God: Religion and American Politics

By Wills, Garry

Simon & Schuster, 1990. Soft cover. Book Condition: New. 445 pages. From Publishers Weekly: Explicating his theory that religion is an inextricable element of American political life, Wills sheds new light on the 1988 presidential campaign. While George Bush wooed Jerry Falwell and extolled patriotism, religion, law and order, Jesse Jackson and Pat Robertson--both ordained ministers, both from the South, both advocates of a moral revival--represented antipodal political extremes. The "secularity" of Michael Dukakis's campaign came across in his "pinched ideal of politics," while Gary Hart, a product of Yale Divinity School, failed to find "a new moral language" to account for personal indiscretions. Wills ( Reagan's America ) writes incisively of Mario Cuomo's stand on abortion and of Robert Bork, "a friend of censorship." He gives his central thesis historical ballast; for example, Abraham Lincoln saw the Civil War as an act of "expiatory suffering," and deist Thomas Jefferson in his private writings revealed his enthusiasm for Jesus's ethical doctrines. ### Reviews

*It is just one of my personal favorite book. I was able to comprehend every little thing out of this published e publication. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Isaac Olson**

*Completely essential read through ebook. This can be for all who state there was not a well worth reading. You wont really feel monotony at at any time of your own time (that's what catalogs are for relating to if you request me).*
