Reviews

This is the finest publication we have read through right up until now. Better than never, though I am quite late in starting to read this one. It has been written in a remarkably easy way in fact it is only after I finished reading through this book that I basically altered me, affected the way I think.

The status of the English language is high in Japan. It has become a marker of high education and openness to other (Western) cultures. Nearly every Japanese pupil is taught English for at least six years at school (from seventh to twelfth grade), but there is the possibility for private schools to start teaching eikaiwa (English conversation) from third grade on. English classes are obligatory for university students of all subjects, although it should be mentioned that these classes are usually overcrowded (often more than one hundred students) and that they take place only once a week for 90 minutes. A TOEFL test in 1997/98 among 26 Asian na-tions ranked Japan 25th and last together with North Korea (McKenzie, 2008, p 272). The Japanese government made heavy efforts to improve English teaching within the last decade. It was tried to motivate more Japanese pupils to spend a year abroad, only 1,000 Japanese pupils took chance of this opportunity in 2003, although there would have been provided money for 10,000 exchange students. Besides this, there are now more assistant language teachers - mainly from the inner circle of English speaking countries,...
