LOCATION- AND CONTEXT-AWARENESS

Springer Mai 2005, 2005. Taschenbuch. Condition: Neu. Neuware - Context-awareness is one of the drivers of the ubiquitous computing paradigm. Well-designed context modeling and context retrieval approaches are key p- requisites in any context-aware system. Location is one of the primary aspects of all major context models - together with time, identity and activity. From the technical side, sensing, fusing and distributing location and other context information is as important as providing context-awareness to applications and services in pervasive systems....
