Apress. Paperback. Book Condition: New. Paperback. 450 pages. Dimensions: 9.0in. x 6.9in. x 1.1in.This book is for anyone who wants to write good Visual Basic 2008 code, even if you have never programmed before. Writing good code can be a challenge, there are so many options, especially in a language like Visual Basic. If you want to really get the best from a programming language you need to know which features work best in which situations and understand their strengths and weaknesses. It is this understanding that makes the difference between coding and coding well. Beginning VB 2008 has been written to teach you how to use the Visual Basic programming language to solve problems. From the earliest chapters, and from the first introductory concepts, youll be looking at real-world programming challenges and learning how Visual Basic can be used to overcome them. As you progress through the book the problems become more involved and interesting while the solutions become correspondingly more complex and powerful as Visual Basic features interact to achieve the results that you want. By the time youve finished reading this book and worked through the sample exercises, youll be a confident and very competent Visual Basic programmer. You will still have many explorations of the . NET Framework API to look forward to in your future career, but you will have a firm foundation to build from and you will know exactly where to go to find the things that you need to progress confidently in your projects. Christian Gross is dedicated to helping his readers understand every detail of Beginning VB 2008. You can contact him via Skype (christianhgross) if you have bought this book and have a question about something Christian discusses. If Christian is available when you contact him, he will even try...
