My DNA Search for My Roots, is a story about the many years I struggled not knowing who my biological father was. This book is about the research and endless desire to find the truth to who I am. How DNA testing gave me a start and place to look after exhausting all other avenues being told by my mother. How sharing a large segment of the X chromosome with a complete stranger showed me a scientific way to track down my lineage. I share my personal life experiences and where and what I was doing along the way which adds interest and insight on who I am. It gives hope to people seeking the truth about who they are. If they are adoptees or someone that was told someone was their dad but finds out he isn't. He/she can find a path to solve the mystery. DNA does not lie.
