Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Presbyopia is not irreversible like it was proclaimed for so long. That is the big presbyopia lie. Glasses and contact lenses or surgery are not the only valid options. My presbyopia was addressed successfully (careful choice of words here) with eye drops made of natural elements and lifestyle changes. These eye drops are protected by a trade secret. The book in bullet points: Eye exercises do not work Reading glasses are worsening the eye condition called presbyopia (need to use reading glasses after the age of 40) LASIK and conventional eye surgery against presbyopia carry risks (like halos, infection, inability to drive at night and blindness) Using reading glasses makes the problem of presbyopia worst faster. This simple read is written in a very accesible format filled with anecdotes. But do not be fooled by the simple style of the author, you will learn a lot about the aging process of the eyes and sight and will discover natural ways to overcome the need for reading glasses.
