Brand New Book ***** Print on Demand *****.Legislative initiatives to comprehensively amend the Clean Water Act (CWA) have stalled for some time as interested parties have debated whether and exactly how to change the law. Congress has recently focused legislative attention on narrow bills to extend or modify selected CWA programs, rather than taking up comprehensive proposals. For example, the 108th Congress enacted one bill amending the CWA: legislation to reauthorize the National Estuary Program (H.R. 4731, P.L. 108-399). In the 109th Congress, the Senate Environment and Public Works Committee has approved S. 1400, a bill authorizing \$20 billion in federal grants to capitalize state clean water infrastructure loan programs. Also, a House committee has approved bills to reauthorize several Clean Water Act programs: H.R. 624 would provide \$1.5 billion in grants over six years for sewer overflow projects; H.R. 1359 would extend a pilot program for alternative water source projects; H.R. 1721 would reauthorize coastal water quality programs; and H.R. 3963 would extend the Long Island Sound Program.
