

THE COLLECTED MATHEMATICAL PAPERS

Filesize: 6.45 MB

Reviews

Simply no words and phrases to clarify. It really is full of knowledge and wisdom You wont feel monotony at at any moment of the time (that's what catalogs are for relating to when you question me).

(Paolo Spinka)

THE COLLECTED MATHEMAICAL PAPERS

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 128 pages. Dimensions: 9.7in. x 7.4in. x 0.3in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1889 Excerpt: . . . of the degree 1, two of the degree 2, and two of the degree 3, but these are connected by an equation of the degree 6. The irreducible covariant of the degree 1 is of course the quartic itself U , the other irreducible covariants are those already spoken of and represented by J, E, T , respectively (J is of the degree 2 and the order 0, and E is of the degree 3 and the order 0, i. e. i and J are invariants, H is of the degree 2 and the order 4, E is of the degree 3 and the order 6). 52. For a quintic, the number of irreducible covariants of the degree 6 is . . . 1 flg x2 4a 64 and k5-f 9a;6 10a7 12a;8 10xd9x108xn6x124xlsxux15x16 COett X m (1-x2)2 (1-a;4) (1-O (1-O the numerator of which is (1 xf (1-x 2a;2 a 2a;4 3a x6 57 a 3a;9 2a;10 x11 2o12-a13 xu); the first factor is (1-x)2 (1-a)2, the second factor is (1-a)(l-a;2)-2(l a)-3(l-a)-2(l-a;5)-2l-(l-l-CI-KI-C1)-19---! which does not terminate; hence incorrect the number of irreducible covariants is infinite. Substituting the preceding values, the expression for the number of the asyzygetic covariants of the degree 6 is coeff. afim(1-x)(l-2)(l-a)-(l-3(1 5)2(1-6)4(1-05(1-(l-9)1-10)9-11)19---which agrees with a previous result: the numbers of irreducible covariants for the degrees 1, 2, 3, 4 are 1, 2, 3 and 3 respectively, and for the degree 5, the number of irreducible covariants is three, but there is one syzygy...
