## NEXT NEIGHBOR NUMBER - NNN (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This brand-new book is our own humble attempt to reinvigorate peoples fascination in numbers. It is a special Number Search puzzle book. We all know word search puzzles. We solved some of them as young students at schools and at home. Word search puzzles are still prevalent in magazines, newspapers, and special publications. However, there are no similar or parallel puzzles for numbers. One big reason for that is that words intrinsically have a meaning, whereas numbers seem more dry and abstract. This book attempts to eliminate these misconceptions; by combining numbers with the concept and strategy behind word searches, this book will show that numbers can be both fun and beneficial! This book is best used at ages 7 and up. For the elderly, this book serves the purpose of improving mental health, keeping the brain active through focus and practice. For the young, this book helps develop problem solving strategies and perseverance. There are 100 puzzles in this book, each being a 15x15 table filled with random numbers between 0 and 9. The requirement is the same for each puzzle - find a continuous string of numbers without any repetitions to score as high as possible. Each puzzle has a several different solutions. All solutions are easily self-checked. Once a player completes one puzzle, he or she can count their score, and is then encouraged to move onto the next to try to score higher than on the previous puzzle! Challenge your family and friends and see who scores the highest!.
