Development of the Urinary and Reproductive Organs

By Frederic P. Miller

Alphascript Publishing Nov 2009, 2009. Taschenbuch. Book Condition: Neu. 220x150x4 mm. Neuware - The development of the urinary and reproductive organs as a part of the prenatal development, concerns the urinary system and sex organs. The latter is a part of the stages of sexual differentiation. The urinary and reproductive organs are developed from the intermediate mesoderm. The permanent organs of the adult are preceded by a set of structures which are purely embryonic, and which with the exception of the ducts disappear almost entirely before the end of fetal life. These embryonic structures are on either side; the pronephros, the mesonephros and the metanephros of the kidney, and the Wolffian and Müllerian ducts of the sex organ. The pronephros disappears very early; the structural elements of the mesonephros mostly degenerate, but the gonad is developed in their place, with which the Wolffian duct remains as the duct in males, and the Müllerian as that of the female. Some of the tubules of the mesonephros form part of the permanent kidney. 68 pp. Englisch.

Reviews

A fresh eBook with a brand new standpoint. It can be rally exciting throug looking at period of time. I am delighted to inform you that this is the greatest book i have read throug during my individual existence and may be he very best publication for ever.

-- **Era Thompson**

Extensive information! Its this type of excellent study. I have read and i am sure that i will gonna go throug yet again once more down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.
