Excerpt from Government Looks at Privacy and Security in Computer Systems: A Summary of a Conference Held at the National Bureau of Standards, Gaithersburg, Maryland, November 19-20, 1973 Any potential confrontation between society and technology over problems of individual privacy and data confidentiality can be defused by understanding and action. The Conference on Privacy and Computer Security has contributed to both by providing an initial statement of governmental needs and problems and suggesting a broad range of activities for satisfying them; we hope this Conference report will serve as the foundation for a continuing dialogue among the government, automation industries, service industries, and the consumer which will lead to a refinement of this statement and the assumption of relevant responsibilities for achieving effective solutions.
