Feed Outlook and Situation Report, Vol. 291: November 1983 (Classic Reprint) (Paperback)

By United States Department of Agriculture

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Feed Outlook and Situation Report, Vol. 291: November 1983 A large number of factors underlie the growth in corn yield during the past 42 years: improved varieties, increased use of fertilizer, larger scale machinery, larger farms and fields, changes in farming techniques, increased seeding rates, and increased farming and management skills. No doubt additional increases in yields will be forthcoming, if only from wider adoption today s state of the art. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
