In this selection from over twenty years of reporting and writing, Ian Jack sets out to deal with contemporary Britain - from national disasters to football matches to obesity - but is always drawn back in time, vexed by the question of what came first. In *Women and Children First* , watching the film *Titanic* leads into an investigation into the legend of Wallace Henry Hartley, the famous band leader of the doomed liner, while *The 12.10 to Leeds* , a magnificent report on the Hatfield rail crash, begins its hunt for clues in the eighteenth century in the search for those responsible. Further afield, he finds vestiges of a vanished Britain in the Indian subcontinent, meeting characters like maverick English missionary and linguist William Carey, credited with importing India s first steam engine. Full of the style, knowledge and intimacy that makes his work so special, this collection is the perfect introduction to the work of one of the country s finest writers.
