The publication is simple in go through preferable to fully grasp. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

THE CONSCIOUSNESS OF STARDUST (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The process by which a seemingly religious theory becomes accepted and eventually appropriated by the mainstream has always amazed me. What were once stories and visions of a theory becomes widely accepted as truth, and without any real empirical evidence, but the faith it is true, and unlocking its practical applications that impact how we live our daily lives. That s powerful thought provoking stuff in anyone s logic. Quantum Consciousness Theory is arguably the most successful scientific theory in human history to date, and because people aren t getting the answers they can rationalize with. so I propose a different path, and maybe to the same place using simpler logic that most can understand and rationalize. And that s the point, to learn as much as we can about our existence and what it actually is, and why that is. I believe when we finally find that one theory we re all looking for, a theory that unifies humanity, we will find it involves something that we already have within ourselves, our consciousness. Because all throughout human history the practice of what was once called magic has always preceded science fact before it s proven true. It s why we keep asking ourselves WHY. so we can find the absolute truth, and that truth works just like we thought it would. I discuss this wonderful new logic in my book, The Consciousness of Stardust, what it actually is, where it came...
