Holsters actually pre-date guns. Do you really think bands of woolly mammoth hunters carried spears and rocks in their hands? After all, they couldn't invent important things like fire and Brown Sugar Cinnamon Pop Tarts with their hands all full of weapons. Let's face it. Choosing the best way to carry a gun can be a daunting task. Whether you're new to guns or have been shooting since you were a wee tot, this book can help you understand concealed carry methods, how to carry a gun safely, and the relative pros and cons of over 120 specific holster models. We'll even teach you several ways to carry a gun in your underwear. This book will help you make the right choice - saving you time and money - while offering a dose of humor while you learn. Why do you need a book to choose and buy a holster? A few reasons really. - At last count, there are 4,187,237 different holsters on the market. Well, that might be an estimate, but there are a lot. If you had a dollar for each of those holsters, you could almost cover the Kardashians weekly clothing budget. So how do you choose the right holster with all those choices? - Hardly any stores carry a wide selection of holsters. Sure they might carry a couple of brands, but will they have a brand right for you and the model specific to your gun? It's kind of like trying to find just the right shade of Morning Tropical Ocean Breeze Sunrise interior house paint at your local convenience...
