

Africa in a Changing Global Environment. Perspectives of Climate Change Adaptation and Mitigation Strategies in Africa

By -

Africa Institute of South Africa. Paperback. Condition: New. 236 pages. Dimensions: 9.7in. x 6.6in. x 0.6in. Africa is one continent severely affected by the ravaging effects of global environment change yet it is least responsible for this. The continents rural and urban poor are particularly vulnerable to reduced agricultural production, worsening food security, increased incidence of both flooding and drought, spreading of disease and heightening risk of conflict over scarce land and water resources. As such this timely book consisting of chapters authored by scholars from multidisciplinary backgrounds provides the reader a variety of contexts from which to understand the impacts of global environmental change and how affected African communities are adapting an mitigating the scourge. In addition it discusses different models for mitigation and adaptation applicable to local contexts. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
