A SHORT CYTOLOGICAL DESCRIPTION OF FOUR MYXOZOA SPECIES

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Research paper | The objective of this study was cytological research of four Myxozoa species. We counted cell populations in plasmodium *M. pseudodispar* with the help of flow cytometry and detected 2 populations in early (103 cells plasmodium) and terminal (505 cells plasmodium) stages of infection, up to 5 cell types in the 104 cells plasmodium. We carried the analysis of organic and non-organic substances in the valves of live and stored...

Reviews

A brand new eBook with a new standpoint. I have got read through and i also am confident that i will gonna read again once again down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.
